The Business Behind the Buzz

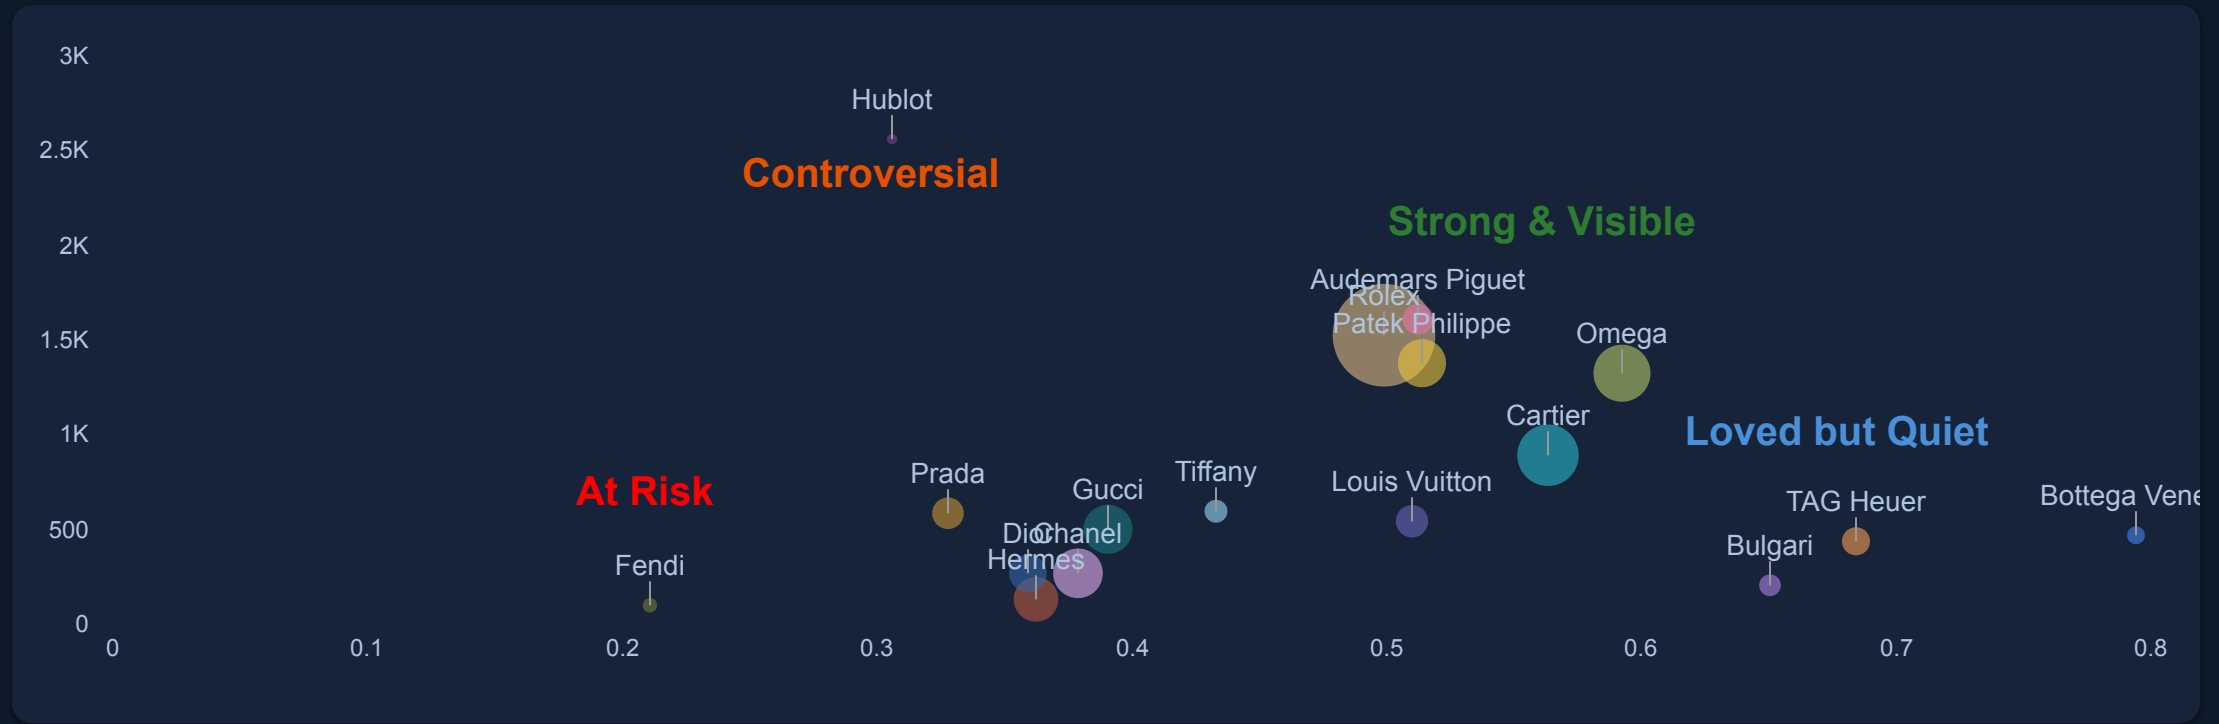

How financial performance connects to brand perception

	year	revenue_eur_millions	dtc_share_pct	operating_margin_pct
1.	2021	9,731	91	38.2
2.	2022	10,487	91	35.6
3.	2023	9,872	91	33.1
4.	2024	7,650	91	null

Strategic Recommendations

KEY FINDINGS & RECOMMENDATIONS

1. TAG Heuer and Bulgari have strong sentiment but low visibility → Increase community engagement and content marketing
2. Hublot generates high engagement but negative sentiment → Investigate drivers of criticism (pricing, design polarization)
3. Fendi has both low visibility and low sentiment → Needs brand repositioning in digital communities
4. Rolex proves sustained community presence builds both volume and positive perception — a model for LVMH
5. Brands with higher Reddit sentiment correlate with stronger margins — Richemont (Cartier) posted 33% margins vs. Gucci's declining 33% → 20%
